

Emotional Intelligence

Module-1

1) Emotional Intelligence:

* Ability to recognize, analyze, and manage one's own emotions, while also being able to influence and interact effectively with other's emotions.

Ability to manage your emotions in an healthy way
(Like Boss scolds you or humiliates you, and it matters on how you take it)

2) Intelligence Quotient:

* Its an estimate of how well one can think & solve problems when compared to others.

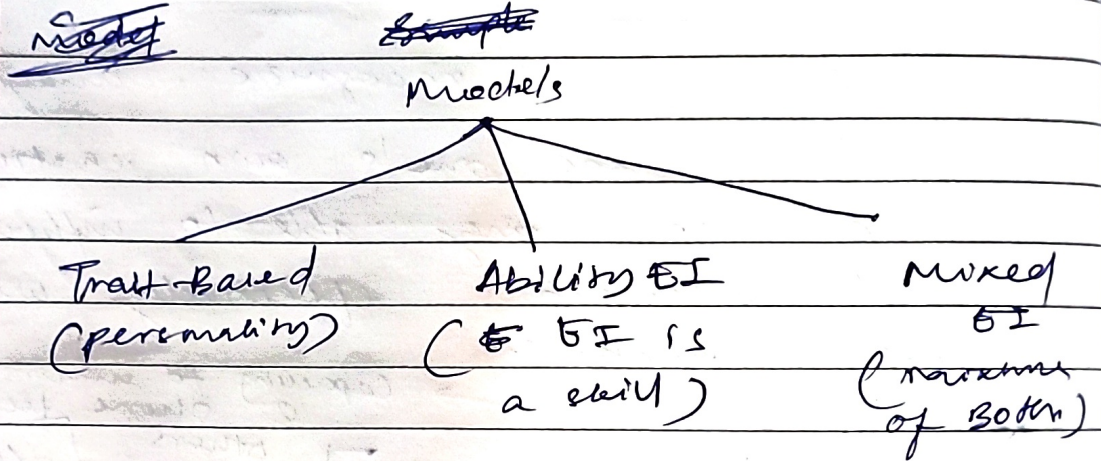

Above 130 → High IQ
Around 100 → Average Intelligence
Below 70 → Low IQ

⇒ High IQ + Low EQ = Success.

Low IQ + High EQ = Success.
